Business discussed at this meeting:

Dell FAST-start grant funds

Discussed draft of Dell FAST-start call for proposals. Suggestions are incorporated into final version on the web (<http://www.lib.duke.edu/cit/grants-dell2000-announcement-faculty.html>).

Instructional Technology Planning

Faculty would like an ongoing pool of student labor to help with projects.
Should consider where outsourcing might be used to meet demand for IT services.
Disagreement as to whether there is a need for university to provide technical training for students. Good self-paced materials may be enough to meet student demand for tech training.
